“ Uncle Paul, I am going to miss you so much! I hate that I learned of your passing through social media while deployed out at sea.. I wish I had visited more often and that you could have seen my boys grow into the ankle biters they are. You would have gotten a kick out of them. Love and miss you, Jamie <3

“ I always knew him as Paul or "Jonesy". We worked together in Building 69 at Kodak. He was a very hard worker, but always found some time to chat or make a joke...He and Ron Gogle together made up the E-6 'experts' until Jonesy retired. We've kept in touch a bit over the years. He would send me notes on politics and religion, both over which he was pretty passionate. I consider him a friend and will miss him. Enjoy your reward, Paul! I'm sure you're up there cavorting with the angels.

“ DOD, bout saved some dinner for ya. I found Sandy and we’re friends now. I know you’re having a wonderful time, and I’m just hoping I’m doing it right. Somehow, I don’t think that’s in your priority list just now. Maybe I need to get my priorities more in line with yours and praise me savior too. I love ya dad! You did your best and to me you were the best.
