“ I worked with Dennis at Precision Bearing for many years before he retired. He was definitely one of the best machinist in the state or furthermore in the country. He was the go to guy if you needed ideas on how to do something,. he could always figure out a way to do something. Dennis was one of the reasons our company could take almost any job and that was because he could do what people at other places couldn't do and do it faster than the time quoted. Aside from the work place Dennis was a good friend of mine. We used to look at the news paper at lunch every week to see where the yard sales would be that week. I would see him every week out at yard sales and he would make me so frustrated because somehow he had the knack to know which one to go to first and get the best deals and I never could beat him to the deals. We had common interest in what we looked for at yard sales which would be mostly anything mechanical, fishing, yard and gardening related. If anyone could make a yard and garden look good it was Dennis. Hands down he had one of the greenest thumb I've ever seen his garden and his yard were impeccable .He taught me so much at work and at home about working on weedeaters, lawnmowers, gardening and just about anything I needed help on mechanical. He could be a prankster and a joker at times too which broke me from being green pretty fast when I came to work with him. This is to Justin, Dennis and Angie..Dennis talked about you all at work very often and bragged on each of you he spoke of how smart each of you are and he was very proud of how successful all of you have been. I will pray for you all , God has reasons for things and we don't always understand them and though Dennis will be missed he is without a doubt in a better place and will never suffer or hurt again.
