“ To family and friends of Gerd,  
I was very saddened to hear of the passing of Gerd.  
I haven't seen Gerd in many years since retiring. I do remember that  
when he shook my hand I thought he was going to break it.  
Gerd taught me a lot in regards to fixing metal parts of our lab  
equipment - "Ski, if you can't screw it in with your fingers you are not  
doing it right!" So true! I've kept that message till this day!  
My thoughts and prayers go to Gerd's family and friends. Rest In  
Peace, God Bless!
