“ To Grandma,

I miss you very much. Thank you for always making sure I was taken care of when I visited and keeping me company when I ate. I remember when I was going to bed at 4:30 AM and heard you putting my clothes in the wash! That was so nice of you. Your back rubs are still some of the best I have had.

*Love,
Alec*

“ Grandma,

I miss you a lot already. Thank you for being an amazing hostess when Alec and I visited. I remember all of the fun trips to the park when I was younger. Love you.

“ *My dear mom in law*

So very grateful to be part of your beautiful life after Joel introduced me to you and Dad in law at least 30 years ago in the sunshine state!

You always shared healthy habit tips and we enjoyed our shopping excursions, some tasty lunches and a scrumptious afternoon tea outing.

It was perfect timing when Joel and I shared we were relocating from N VA January 2023 to SC to build a new lake view home sweet home that you and dad moved so you could be near both your sons.

Thankful you and Dad established a happy relationship with my parents when we gathered for our boys Baptisms, First Communion and a couple Graduations.

You will always hold a special place in our family's heart. I love you angel mom in law

“ My husband Ron and I met Marge and Stan when our daughter Camilla Gasta met and then married Joel Stall over 28 years ago.

We sent birthday and anniversary cards to each other and many phone visits.

I will miss them dearly!

Love, blessings and comfort to all the Stall family and their friends

“ I have many fond memories of Aunt Marge. She was was interesting to talk to and always had good things to say about everyone. She and Uncle Bud seemed to have a great life together. How wonderful that they were able to move on together to the next level. God bless them and their family. 🙏💕

“ I had wonderful memories of my sister in law Marge. We spent special moments together through our years. She was a great registered nurse. She was also very influential in my career. We spent much time talking when she moved out of NYS. Her passing was 3 minutes after my brother Stan (Bud) passed away. They were meant

to be together during life and in passing on. She was a women who only had good to say about everyone . In her leisure time she enjoyed playing Dominos , Bicycle, riding, and exercise classes.- I will always have her in my heart❤️.

RIP My friend & sister in law Margaret 🙏💕

For several years prior to 2023, my wife Cassy and I spent parts of our winters on Sanibel Island, and we always made a point of having dinner with Bud and Margaret in Naples. We reminisced about years gone by, tried to remember where family members were living and what they were doing, told stories (most likely, repeats from past years!), and just generally had a lot of laughs, topped off with a piece of pie or cake and a cup of coffee around their dining table. They were good people and we will miss them.

My memories of Aunt Marge and Uncle Bud are the reunions and family gatherings when they would come to Bentonville Arkansas to visit. My favorite thing would be trying to get Aunt Marge to reveal her age which was a subject that she would not want to discuss! Loved their laughs and that Boston accent!!
