

## William Bruce Juhnevicz Jr

May 18, 1959 - November 14, 2024

Taylors, SC – William Bruce Juhnevicz, Jr. passed away peacefully at his home on November 14, 2024. Bill was the son of William and Carolyn Juhnevicz and the loving husband of 32 years to Eileen Prior Juhnevicz. Bill was born in New Jersey in 1959 and raised in Connecticut as one of two children. He received his Bachelor of Science in Mechanical Engineering from Northeastern University in Boston. After graduating, Bill began a career in Mechanical Engineering that he was very proud of. He received his PE license and was extremely talented at his job. He took pride in teaching young engineers and sharing the wealth of knowledge he held.

He was a member of the Episcopal Church of The Good Shepherd. He was an avid hunter and loved woodworking; however, his children were the thing he was most proud of in his life. He loved his girls, whom he nicknamed Jamester and Conster, dearly and thought the world revolved around them. In addition to his wife, he is survived by his beloved daughters, Jamie and Connie; his brother, Steve Juhnevicz (Diane) and his parents William and Carolyn (Wispolis).

A memorial service will be held on Friday, November 22, 2024 at 3:00 PM at the Episcopal Church of The Good Shepherd, 200 Cannon St., Greer, SC 29651.

In lieu of flowers, donations may be made to the Episcopal Church of The Good Shepherd, the National Kidney Foundation; [www.kidney.org](http://www.kidney.org) or the American Diabetes Association; [www.diabetes.org](http://www.diabetes.org).

“ Tried to send Bill a message through LinkedIn, only to find that his profile indicates that there was a problem. Did a search on the web to find another way to contact him, only to tragically find out that he had passed away in November of 2024. I was so sorry to see that. He was truly a wonderful man and great engineer. I just was conversing with him through LinkedIn on October 19th of that year. My deepest condolences to you and your family on your loss. He will always be in my memory.  
Eileen, if you want to contact me, I can be reached by EMAIL at [bee\\_bop4722@yahoo.com](mailto:bee_bop4722@yahoo.com).  
Again, my deepest condolences.

*Bob Mokosaik*

“ Your family is very much in my thoughts and prayers. I talked to Bill to check on him the day before he passed. He was in good spirit even with the health difficulties he was having. I first knew Bill primarily 2nd hand through other engineers working on my first combined cycle power project with GE around 2001. A few years ago I re-connected with Bill and consider myself blessed to work with him again and much closer than before. Little did I know that we would team up on power generation projects back-to-back soon after he was hired by AFRY. Bill was a great colleague, friend and advisor. He was most respected by those of us at AFRY who worked with him. I know Bill enjoyed contributing to projects and mentoring new engineers. I will miss swapping family updates, project stories, and the laughs with Bill.

“ Please know that you’re family is in my thoughts and prayers during this difficult time. Bill wasn’t just my first boss as a young engineer fresh out of college—he was also a trusted friend and mentor. His guidance and support had a profound impact on my career during my time at Fluor and have continued to influence me throughout my life.

*I always cherished our conversations about family, hunting, shooting, and work. Bill was a truly great man and will be deeply missed. If there’s anything I can do to support you, please don’t hesitate to reach out.*

“ Eileen, Connie and Jamie  
We were so very saddened to hear of Bill's passing. Please accept our sympathy at this time of your loss. Eleanor and Frank Scussel (Diane's parents)

Eleanor Restivo Scussel - November 17, 2024 at 12:17 PM

“ I am deeply saddened to hear of this. Bill was a good friend with whom I worked with on challenging GE-S&L projects. We shared many common interests and he always talked about his dad and pistol shooting. I had hoped that he would join me at GE and continue our work on combined cycle projects. My deepest sympathies to his family.

“ I worked with Bill during our tenure at Fluor. I can see him now during his first weeks at Fluor with his wife Eileen. He was a good engineer and one who I would call upon to help conduct safety reviews of the projects Fluor was designing to build. Got to know the family well as Eileen ended up working form my Team. During the past year, Bill would call to check on me as my wife is suffering from a rare for of dementia. We would chat long about things from shooting, hunting and of course work which he was supporting at Afry. Lots of discussion about environmental and safety design for the project he was supporting. I will miss out talks as he was worried about me and how I was holding up being the primary caregiver for my bride. My sincere sympathy to Eileen, Connie, and Jamie as I know that his girls were his world. Miss ya buddy. Mike Martin
